

NEWSLETTER - NOVEMBER 2008

Hey! TTK has new product! Take 5 minutes to go through! 嗨! TTK 又有新产品啦! 先一睹为快!

TECHNICAL NEWS

NEW RANGE OF PRODUCT

TTK is well known by market for its "star product": digital locating system FG-SYS (center on picture), with addressable cables. This system is capable to cover several floors of a skyscraper, or 1800 meter length with only one panel. Recently, we launched to Asia market a new product FG-ALS: Alarm & Locating System (left on picture) for the distance

less than 150 meter. The typical applications are small to medium size computer rooms, electricity rooms, office areas, etc. This new product is created to answer Asian countries needs. Shortly after being launched, this product has received very positive feedback from several markets as HK, China, Singapore, Malaysia, etc.

Till now, TTK has different panels for big (between 150m~1800m), medium (between 30m~150m) and small (< 30m) areas to fit for all commercial applications.

Click [here](#) to open the FG-ALS data sheet (in English and Chinese, .pdf), [here](#) to see more products on website, [and here to drop us a quick message for any request.](#)

TTK 向来以技术领先同行一整代的拳头产品--数字化定点检测系统 FG-SYS 为市场所熟悉。该系统通过感应线缆，只用一部主机即可保护几层大楼或长达 1800 米的距离。最近，总部法国巴黎研发中心在刻苦研发和专业测试后，公司成功向亚洲市场投放了新产品 FG-ALS（意为“定点检测及警报系统”）。它适用于检测距离小于 150 米的场所，如小型机房，配电房，办公场所等。它兼具高端产品数字化系统的“定点报警”的功能，又较之有价格优势，名副其实为亚洲市场量身定做。产品投放初始，立刻收到了市场的良好、积极的反应。

TTK 完善的产品线适于不同场所使用：大型机房或厂房（150m~1800m 的保护距离）使用 FG-SYS 定点检测；中型机房、设备房（30m~150m 的保护距离）使用新产品 FG-ALS 定点检测；以及小型机房（< 30m 的保护距离）则使用 FG-A，不定点报警系统。

COMPANY NEWS

RECENT REFERENCES IN ASIA

- **Singapore:** Credit Suisse, Global Switch, Singapore Air Traffic Controller, National University of Singapore (NUS)
- **China:** Société Générale bank data center at Beijing (last June) and Guangzhou (last Sep) sites
- **India:** JP Morgan 3 sites: Magnus Towers, Paradigm Towers, TKP Towers at Mumbai (installation on last Sep)
- **Indonesia:** JP Morgan (installation on last Sep)
- **Thailand:** Deutsche Bank (installation on last Oct)

- **新加坡:** 瑞信银行数据中心, Global Switch, 新加坡航管公司, 新加坡国立大学(NUS)
- **中国:** 法国兴业银行北京分行(六月安装), 广州分行(九月安装)
- **印度:** JP 摩根银行在孟买三栋大楼: Magnus Towers, Paradigm Towers, TKP Towers (九月安装)
- **印度尼西亚:** JP 摩根银行(九月安装)
- **泰国:** 德意志银行曼谷分行(十月安装)

TTK ASIA

TTK Asia is now presenting in South and East Asia: **Greater China Region, Singapore, Malaysia, Indonesia, Thailand, Vietnam, South Korea and India** by TTK subsidiary offices or cooperation with local distributors.

TTK 亚洲分公司, 总部设在香港, 业务已经扩展到东南亚一带国家: 大中国区, 新加坡, 马来西亚, 印尼, 泰国, 越南, 南韩以及印度。

SEMINARS AT SING & HK

During 15th to 25th September, TTK Asia has held 8 seminars in Singapore and Hong Kong with several big consultants as Meinhardt, Ove Arup, M+W Zander, WSP, Mott MacDonald etc. A big part of these consultants knew TTK before via some WLD projects, this seminar with a brief presentation, live demonstration and a small exercise, allowed a direct view and deep understanding on TTK systems.

九月十五至二十五日, TTK 亚洲与八家设计院举行了研讨会, 如迈进, 奥亚纳, M+W Zander 美施威尔, 科进, 柏城, MacDonald 等。其中一大部分设计院已经和 TTK 有过项目合作, 经过这次研讨会, 精练的介绍, 现场的漏水演示和设计小练习, 让工程师们对 TTK 漏水检测系统有了更加直观和全面的了解。
